ECONOMY MINISTER, MR. BEKTESHI, VISITED MACEDONIAN COMPANY ATS AT THE EUROPEAN FAIR MILIPOL 2023

- Economy Minister Mr. Bekteshi says - “ATS is the only company from the region representing our country with such a large exhibition area”

15.11.2023, Paris, France - During the Paris Milipol 2023 Fair, the only participating Macedonian company, ATS welcomed our Economy Minister Mr. Bekteshi and the Deputy Interior Minister, Mr. Bushi. The Group’s owner, Mr. Demirovski, and his team welcomed the guests.

“It’s my great pleasure to attend today, together with Deputy Minister, Mr. Bushi, and the Group’s owner, Mr. Demirovski, this important fair for industry-specific production, that is, a fair for defense and safety products. We have just had the opportunity to go around the fair and we have noticed that ATS is the only company from the region representing our country with such a large exhibition area, which demonstrates that there are successful companies in North Macedonia which do not only generate new jobs, but also promote the country with their innovations. Companies like ATS should be fully supported by the state to be able to develop and we need to use their ideas and experience to strengthen the country’s capacities for the production of products necessary for our police and defense as part of the NATO Alliance” – said Economy Minister, Mr. Bekteshi.

ATS GROUP is the only Macedonian company that participates in world-famous security fairs. At Milipol in Paris, the company presented its world-famous products and equipment in the field of ballistics, as well as the new areas in which it operates and competes with the world’s largest manufacturers in the industry. ATS GROUP, seated in Skopje, is a modern Macedonian corporation consisting of three companies, two of which are in Skopje and one in Samokov, with more than 500 staff and 40 years of experience. They work to the highest standards and produce a wide range of products, whose quality is recognized globally and for which they have received numerous awards. ATS Group produces composite products, ballistic protection, and ballistic safety products for the military and the police. In addition, the company produces small caliber ammunition and full lines of machinery for ammunition production, which helps increase its export potential year by year and thereby meet its development plan and mission.
