ATS GROUP EXHIBITS AT THE PRESTIGIOUS DEFENSE INDUSTRY SHOW IN THE UNITED STATES

Washington, USA 15 October 2024 - The most powerful ones in one place in the USA, in the capital, Washington. Among hundreds of exhibitors from all over the world (more than 700), ATS GROUP is exhibiting alongside the most powerful professionals in the defense industry in the capital of the most powerful country in the world as the only company from North Macedonia and one of the rare ones from the Balkans. More than 80 countries are present through their exhibiting companies in this show organized by the Association of the United States Army - AUSA 2024.

AUSA is held annually and gathers in one place producers, the highest US Army officials, official delegations, experts, researchers, investors as well as journalists covering defense and security topics. AUSA is the most significant international show in the defense industry on the American continent and one of the most significant and influential ones globally.

ATS GROUP started producing technical textile this year and is exhibiting in Washington its new products, ATS UD ARAMID 230 and ATS UD ARAMID 540, necessary for most ballistic products, along with its well-known ballistic products and equipment. This show is an excellent opportunity for our Group to demonstrate its leading engineering expertise, machines and tools for ammunition production, and its professional management which manages and represents the Group.

AUSA 2024 is taking place at a time of significant global tensions and allows for new partnerships to be made, panel discussions and seminars on relevant security topics which are crucial for global defense policy making. Being a Macedonian company, ATS GROUP has put North Macedonia on the global defense map as a serious stakeholder which is an equal counterpart to the largest global manufacturers and defense professionals.

ATS GROUP is seated in Skopje and is a corporation consisting of four companies, three of which in Skopje and one in Samokov, with more than 500 staff and 40 years' experience. The Group works to the highest standards producing a wide range of products with globally recognized quality, which is made evident by their numerous achievements and awards. ATS Group manufactures composite products for ballistic protection and ballistic safety designed for the army and the police. In addition, the company produces small caliber ammunition, as well as a production line for the development of the whole ensemble of ammunition production machinery, thereby increasing its export potential and implementing its development plan and mission every year in a row.
